## THE HAND ON THE MATERIAL

***Les Etains De Lyon har fått pris från Franska regeringen (EPV).***

*At the heart of the society, Les Etains de Lyon, we convey a state of mind in the creation of bar counters and kitchen worktops made from tin.*

*This noble and elegant material has naturally moved with the times by adapting to all interior design styles.*

*This capacity to age and improve with time is just another of its charms.*

*Since 1947, ours artisans have mastered and developed their approach to working with tin, making it a meticulous art that requires great knowledge and skill.*

*Their inspiration resounds in their creations, all of which are authentic and promised to you as a unique, high quality and bespoke space.*

*We offer you a handmade warranty and certificate of authenticity.*
